PROFILE

I am a dedicated and hardworking professional with a proven track record of consistently meeting deadlines and delivering exceptional results. I thrive as an adaptable collaborator, excelling in challenging circumstances. With a demonstrated ability to meet deadlines and achieve outstanding outcomes, I also possess leadership and problem-solving skills showcased during my tenure as the Workshop Coordinator for the Second African Computer and Human Interactions Conference in 2018.

WORK EXPERIENCE

Younglings Africa

Current

Software Developer intern

- Demonstrated creativity and attention to detail in designing and implementing a professional portfolio website using React, HTML, CSS, and JavaScript, showcasing skills projects while ensuring high quality.
- Created a visually appealing design based on Balsamiq wireframes and Figma designs, ensuring a modern and user-friendly interface.
- Demonstrated proficiency in front-end technologies to create interactive and dynamic web applications.
- Implemented clean and maintainable code practices, adhering to industry best practices and coding standards.

UVU Africa(Capaciti)

2023- 2024

Software Developer Intern

- Collaborated effectively in group projects involving Java, Python, NodeJs, HTML, CSS, and JavaScript, contributing to the successful completion and functionality of various applications.
- Utilized MySQL database for data storage and retrieval, ensuring efficient management and organization of project data.
- Demonstrated versatility by working on diverse technologies such as Power BI, enhancing data visualization and analysis capabilities for projects.
